

My wife and I are retirees who listen to XM radio, almost exclusively. We travel extensively and rely heavily on XM radio weather reports in making travel plans. It is a God-send to us.

We have XM Radio in our home, as well. The Music and news channels are exceptionally clear and available anytime, anywhere. We watch less TV, since the advent of XM Radio. We love it.

We do not want the excellent service we receive to be altered in any way - especially removing or limiting the weather channels.

Thank you for your attention to this matter.
